

POSITION AVAILABLE

Warehouse Technical Prep Technician

We are seeking an experienced, dedicated and enthusiastic, permanent full-time Warehouse Technical Prep Technician to join our team although part-time may be considered.

The preferred candidate will have general warehouse experience in addition to a general all round event technology understanding and proven experience working with audio-visual equipment. They will be highly organised, detail oriented with the ability to work well as part of our larger team.

The role will include preparing equipment for events & exhibitions: display screens; audio systems; HD/4k video routing & switching systems; LED lighting; camera equipment; and network & power infrastructure.

primary responsibilities

Prepping a range of audio visual and lighting equipment, ensuring that it is tested (including PAT testing) and prepped to the highest standards using our existing asset management platform ensuring equipment is checked in and out of the warehouse accurately and in a timely manner, both for internal projects and dry-hire clients.

prerequisites

A full driving licence is required for the occasional delivery/collection of equipment. 2 to 3 years experience working with technical events technology is essential. Strong organisational and time management skills. Good attention to detail. The ability to stand for long periods and undertake frequent manual handling tasks. A forklift truck operators licence would be beneficial. A great team player!

salary

Competitive based on experience.

job type

Permanent, full time. Part-time may be considered.

start date

ASAP.

working hours

09:00 - 17:30 Mon - Fri. Additional hours may be required to meet the needs of the business.
